

The Pitman-Koopman theorem and informationally relevant quantities

Y. Roudi
<yasser.roudi@ntnu.no>

P.G.L. Porta Mana
<piero.mana@ntnu.no>

Draft of 23 June 2018 (first drafted 18 June 2018)

1 From qualitative to quantitative statements

What do the special theory of relativity, the Shannon entropy, and the probability calculus have in common?

Thanks

PGLPM thanks Mari & Miri for continuous encouragement and affection; Buster Keaton and Saitama for filling life with awe and inspiration; the developers and maintainers of L^AT_EX, Emacs, AUC_TE_X, Open Science Framework, Python, Inkscape, Sci-Hub for making a free and unfiltered scientific exchange possible.
